**50,000 Products (the Products)**  
pursuant to the Issuer's  
**Exchange Traded Products Programme**

---

This document constitutes the Final Terms of the Products described herein.

### PART A – CONTRACTUAL TERMS

Terms used herein shall be deemed to be defined as such for the purposes of the General Terms and Conditions of the Products (the **Conditions**) issued by 21Shares AG (the **Issuer**) set forth in the Base Prospectus dated 13 November 2019 (the **Base Prospectus**). This document constitutes the Final Terms of the Products described herein and must be read in conjunction with the Base Prospectus (and any supplement thereto). Full information on the Issuer and the offer of the Products is only available on the basis of the combination of these Final Terms and the Base Prospectus. The Base Prospectus (together with any supplement thereto) is available for viewing at the registered office of the Issuer and on the website of the Issuer (<http://21Shares.com/en/ir#prospectus>) by selecting Base Prospectus. The Final Terms will be available for viewing at the registered office of the Issuer and on the website of the Issuer (<http://21Shares.com/en/ir#final-terms>) by selecting Final Terms and the respective Security Code.

**The Base Prospectus, together with these Final Terms, constitutes the listing prospectus with respect to the Products described herein (the Listing Prospectus) for the purposes of the Listing Rules of the SIX Swiss Exchange in their version dated 8 November 2019 and in force as of 1 January 2020 (the Listing Rules). In accordance with article 109 of the Swiss Financial Services Ordinance, the Listing Prospectus has been prepared in compliance with articles 652a and 1156 of the Swiss Code of Obligations, as such articles were in effect immediately prior to the entry into effect of the Swiss Financial Services Act (the FinSA), and the Listing Rules. Consequently, the Listing Prospectus has not been and will not be reviewed or approved by a Swiss review body pursuant to article 51 of the FinSA, and does not comply with the disclosure requirements applicable to a prospectus approved by such a review body under the FinSA.**

In accordance with article 58a of the Listing Rules, the Issuer has appointed Homburger AG, located at Prime Tower, Hardstrasse 201, 8005 Zurich, Switzerland, as recognised representative to file the listing application with SIX.

<b>Description of the Relevant Agreements</b>	<p><b>Custodial Services Agreement</b></p> <p>On 23 December 2019, the Issuer entered into a custodian agreement with Bank Frick &amp; Co Aktiengesellschaft, which is governed by the laws of Switzerland. This custodian agreement sets out the principal terms on which Bank Frick &amp; Co Aktiengesellschaft is appointed to act as a Custodian with respect to the cash Collateral in respect of the Products and sets out the duties and obligations of Bank Frick &amp; Co Aktiengesellschaft in relation to holding all cash amounts and assets that the Issuer delivers to Bank Frick &amp; Co Aktiengesellschaft in a separate account for the respective series of Products set up for the Issuer. The custodian agreement sets out the conditions for termination of the agreement and implements the Account Control Agreement.</p> <p><b>Pledge of Collateral Account Agreement</b></p> <p>As of 23 December 2019, the Issuer entered into a pledge of collateral account agreement with the Collateral Agent, which is governed by the laws of Switzerland. This pledge of collateral account agreement provides a security interest in favour</p>

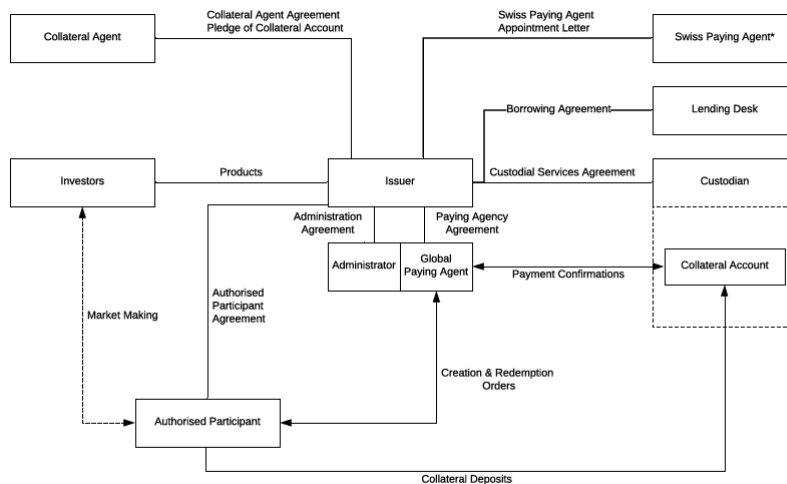

of the Collateral Agent for the benefit of the Investors in all of the Issuer's current and future rights, claims, benefits and interest against the Custodian under the Custodial Services Agreement and in and to the respective Collateral Account, including, without limitation, the balances standing to the credit of the Issuer from time to time. The security interest created in this pledge of collateral account agreement a first ranking continuing pledge and is for the benefit of the Investors holding Products.

**Account Control Agreement**

As of 23 December 2019, the Issuer entered into an ACA with the Collateral Agent, which is governed by the laws of Switzerland. The ACA was entered into pursuant to the terms of the Pledge of Collateral Account Agreement for the purpose of further securing the security interest in favour of the Collateral Agent for the benefit of the Investors in respect of the Collateral Accounts and Collateral. In addition to the ACA, The Issuer entered into a custodian agreement dated as of 23 December 2019 with Bank Frick & Co Aktiengesellschaft to implement the ACA.

\* for SIX listed Series of Products

**Additional risks related to inverse Exchange Traded Products (ETPs)**

**General Information about Inverse ETPs (the Product/s)**

Inverse ETPs seek to achieve a return that is the inverse performance of the respective underlying. An inverse ETP that tracks a particular index, for example, seeks to deliver the inverse of the performance of that index. To accomplish their objectives, inverse ETPs pursue a range of investment strategies through the use

of swaps, futures contracts, and other derivative instruments. In the case of iBTC, the product uses short selling of Bitcoin (BTC) to accomplish this objective.

The Products “reset” daily, meaning that the ETPs are designed to achieve, and reflect, their stated objectives on a daily basis. Their performance over longer periods of time – over weeks or months or years – can differ significantly from the performance (or inverse of the performance) of their underlying (here: Bitcoin (BTC)) or benchmark during the same period of time. This effect can be magnified in volatile markets.

The Products are not suitable for all investors. The Products are designed to be utilized by sophisticated investors, such as traders and active investors employing dynamic strategies.

### **Short Exposure Risk**

The Redemption Amount and the market value of any Products will be affected by the nature of the exposure they provide to Investors. Where the exposure is a short position, as is the case for the Products, the value will be affected negatively of a rise in value, and will be affected positively by a fall in value, of the relevant tracked underlying. Specifically, in the case of the Products, where the Underlying is iBTC, a rise in Bitcoin (BTC) will negatively affect, and a fall in Bitcoin (BTC) positively affect, the value of the Products.

Furthermore, the Product will be exposed to certain additional risks associated with selling short. These risks include, under certain market conditions, an increase in the volatility and a decrease in the liquidity of assets underlying the short position, which may lower the Product’s return, result in a loss, have the effect of limiting the Product’s ability to obtain inverse exposure through financial instruments, or require the Product to seek inverse exposure through alternative investment strategies that may be less desirable, or more costly, to implement. To the extent that, at any particular point in time, the asset underlying the short position, such as Bitcoin (BTC) for the Products, may be thinly traded or have a limited market, including due to regulatory action, the Product may be unable to meet its investment objective due to a lack of available securities or counterparties. During such periods, the Product’s ability to issue additional Products may be adversely affected. Obtaining inverse exposure through these instruments may be considered an aggressive investment technique.

Moreover, the Bitcoin blockchain can undergo forks. These events can cause pricing anomalies, trading restrictions and other disruptions to this Product. Investors in this product bear the risk of forks and, due to the Product’s structure, will also be short any asset newly created through a hard fork in Bitcoin (BTC). These events may cause significant losses in value.

**Leverage Risk**

The Product obtains investment exposure of its net assets by utilizing leverage from multiple loan facilities and may lose more money in conditions that are adverse to its investment objective than a Product that does not utilize leverage. An investment in the Product is exposed to the risk that a rise in the daily performance of the index will be magnified.

**Counterparty Risk**

In connection with the Product, the Issuer may invest in financial instruments such as swap agreements and borrowing facilities involving third parties (i.e., counterparties), which will subject the Product to additional risks that are different from those associated with ordinary securities. The Product is exposed to the risk that a counterparty may be unwilling or unable to make timely payments to meet its contractual obligations or may fail to return holdings that are subject to the agreement with the counterparty. If the counterparty or its affiliate becomes insolvent, bankrupt or otherwise defaults on its payment obligations to the Issuer entered into in connection with the Product, the Issuer may not receive the full amount it is entitled to receive and the value of an investment reflected by the Product, and thereby the value of the Products, may decline. In addition, if any collateral posted by the counterparty related to positions entered into for the benefit of the Issuer Product is insufficient or there are delays in the Product's ability to access such collateral, the Product may not be able to achieve its inverse leveraged investment objective. The Product may not be able to exercise remedies, such as the termination of transactions, netting of obligations and realization on collateral if such remedies are stayed or eliminated under special resolutions adopted in the European Union and various other jurisdictions.
